Ayşe Yılmaz

Senior Backend Engineer

ayse.yilmaz@example.com · +49 30 1234 5678 · Berlin

SUMMARY

Backend engineer who builds efficient, well-tested services for logistics platforms.

EXPERIENCE

Senior Backend Engineer, Müller & Söhne GmbH Mar 2021 – Present

- Moved the order pipeline to Kubernetes and cut deployment time from 40 to 6 minutes with a new CI/CD setup.
- Led the office-wide migration from a monolith to event-driven microservices in C# and .NET.

Software Engineer, Kargo Teknoloji A.Ş. Sep 2017 – Feb 2021

- Built the courier tracking API in Node.js and TypeScript, serving 2 million requests a day.

Responsibilities included internationalisation and accessibility.
